Wallet Activity: Savings Application Information

December 2022

File name Savings Application Information.csv

File description

This file contains information related to the customer's Savings account application that Apple holds.

Why Apple keeps this information

Apple retains this information to manage the user's application for a Savings account and for financial records management.

Field Name	Details
Application Created Date	Date and time the application record was created
Application ID	An identifier for the customer's application for a savings product, as provided by Apple's partner bank
Application Last Modified Date	Date and time the application record was last modified
Application State	The status of the customer's application
Application Status Changed Date	Date and time at which the application status was changed
Application Terms ID	Identifier for the terms specified in the customer's savings account application, as provided by Apple's partner bank
